## PROGRAM SUMMARY

### FEATURES AND OPTIONS

- Harmonious coloration throughout the blind, even on the end of the slat and rout holes.
- Decorative crown valance to match every color and stain
- Available in 8 different wood tones, 6 shades of white and 13 embossed colors
- A truthful wood look
- Select colors available in 2" and 2.5" slats
- An affordable option for your window treatment
- Resistant to extreme situations such as humidity and temperature changes
- Tape upgrades available to coordinate with your overall color scheme
- Limited 3-year warranty

### BLIND AUTOMATION

- Control your shades with the touch of a button
- Perfect for hard-to-reach windows
- Safer for children and pets — eliminates dangling cords

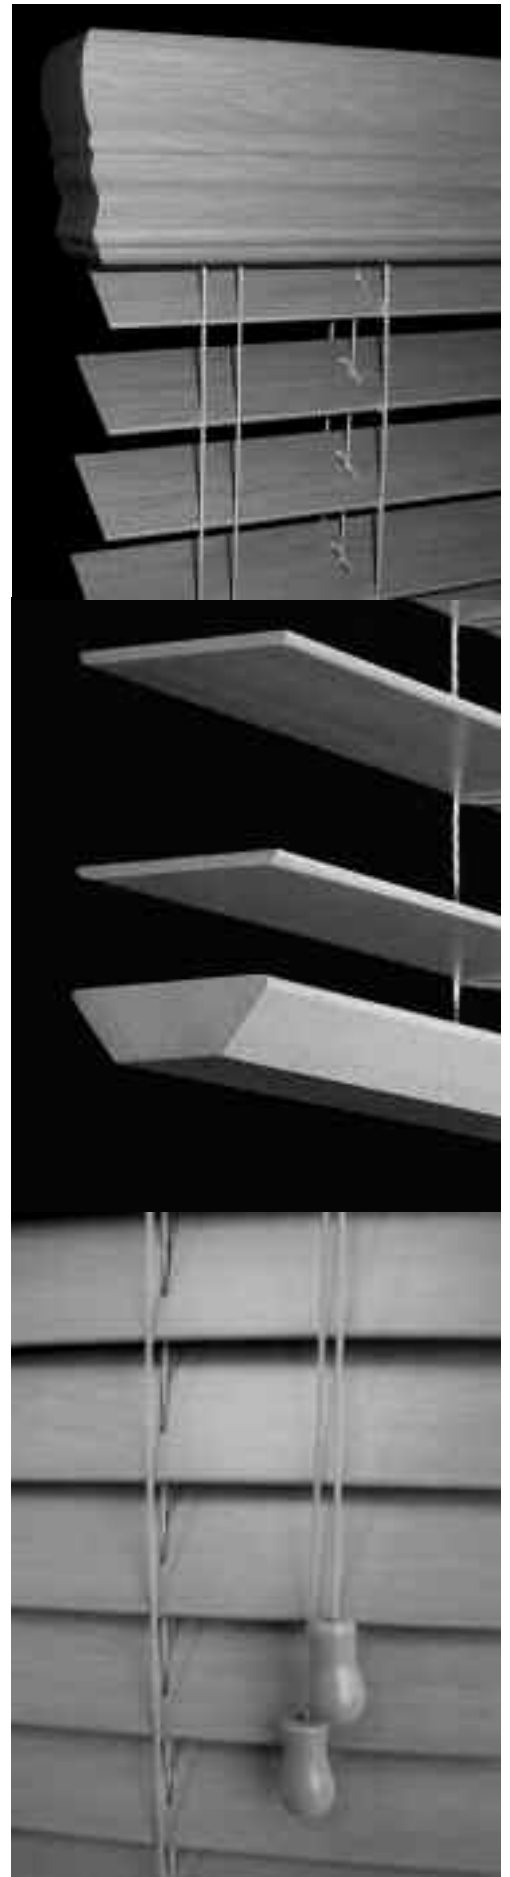

### FASHION TAPES AND DECORATIVE TRIMS

- Customize your blinds with Kensington Fashion Tapes
- Available in an array of bold colors, as well as subtle and delicate patterns

### HARDWARE SYSTEM

- Heavy duty components for smooth operation, higher load capacity, and enduring performance.
- High strength resin supports to handle the heaviest loads.
- Heavy duty steel headrail for durability and corrosion resistance.
- Crash-proof cordlock to hold slats securely in any position.
- Top-hinged end bracket cover for easy installation and removal.

**Kensington Faux Wood Blinds** have the rich, natural look of real wood, but are fabricated from materials that offer advantages that wood can not. Faux wood slats will not warp or crack, even in hot, humid conditions, making these blinds ideal for applications such as kitchens and bathrooms. The finish is always even and will not fade. Faux wood blinds are a more economical alternative to wood blinds.

**KENSINGTON FAUX WOOD**

2" WHITE WITH ROUTED SLATS AND BRAIDED LADDERS

2" EMBOSSED WITH ROUTED SLATS AND BRAIDED LADDERS

WIDTH:		24"	30"	36"	42"	48"	54"	60"	66"	72"	78"	84"	90"	96"

\*All blinds 8" OB to 13" OB or 8 1/2" IB to 13 1/2" IB are available with center tilt only, no lift cords. \*\*Due to weight limitations, Kensington Faux Wood Blinds are only available up to 96" in length.

**MULTIPLE BLINDS ON ONE HEADRAIL**

Width	
Minimum overall net width, 2 on 1	12 1/4"
Minimum overall net width, 3 on 1	18 1/2"
Maximum ordered width	96"
Height	
Minimum ordered height	12"
Maximum ordered height	96"
Area	
Maximum number of blinds	3
Space between blinds (routed)	1/4"
Space between blinds (routless)	1/2"

**FINISHED DIMENSIONS**

Inside Mount Allowance	
Blind	1/2" less than ordered width
Valance	1/8" less than ordered width
Outside Mount Allowance	
Blind	As ordered
Valance	5/8" greater than ordered width
Standard valance returns	2 1/2"

Multiple Blinds on One Headrail	
Gap between blinds	3/8"

**MOUNTING REQUIREMENTS**

2-Inch Slats	
Min. shallow mounting surface	5/8"
Min. flush inside mounting surface	2 1/2"
Min. outside mounting surface	3/4"
2 1/2" -Inch Slats	
Min. shallow mounting surface	7/8"
Min. flush inside mounting surface	2 1/2"
Crown Valance	3 1/2"
Min. outside mounting surface	3/4"

**CONTROL OPTIONS**

- Lift Cord:** Standard length equals 2/3 of the total blind length ordered.
- Tilt Cord:** (Standard) Standard length is 4" less than the length of the lift cord. Minimum length is 20"
- Tilt Wand:** (no charge option) Available on all Kensington Faux Wood Blinds except 2 1/2" Slat Blinds (cord tilt only)

**LADDER COUNT**

Ladder Quantity	Blind Width
2 each	6" to 21" wide
3 each	32" wide
4 each	43" wide
5 each	54" wide
6 each	65" wide
7 each	76" wide
8 each	87" wide
9 each	96" wide

**FAUX STACKING HEIGHTS** *With braided ladders.*

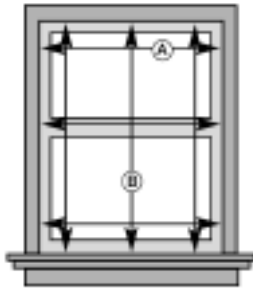

Blind Height:	48"	72"	84"	96"
Stack height	7 3/4"	10 1/2"	12"	13 3/8"

**MEASURING GUIDELINES**

Accurate measurements are essential. for both correct pricing and proper fit. Use only a hard-edged ruler or steel tape, never a cloth tape. For inside mounts, width measurements should be rounded down to the nearest 1/8" to prevent blind from binding against the window casing.

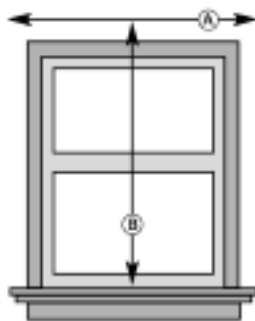

**INSIDE MOUNTING (IB)**

- For **WIDTH (A)**, measure across the window casing from one inside edge to the other in three places, top middle, and bottom. Record the **smallest** width rounded **down** to the nearest 1/8".
- For **HEIGHT (B)**, measure the inside area from the top inside edge down to the top of the sill in three places, left, middle and right. Record the **longest** length rounded **up** to the nearest 1/8".
- The factory will make all the necessary deductions for inside mount.

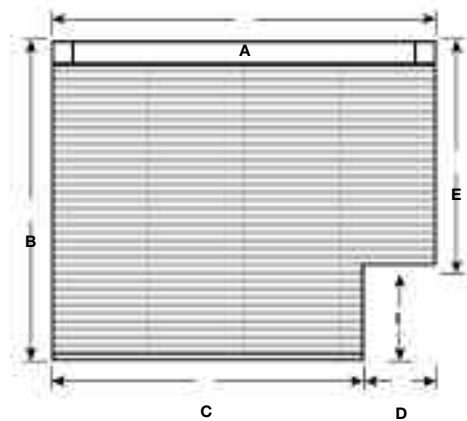

**OUTSIDE MOUNTING (OB)**

- For **WIDTH (A)**, measure from one edge of the casing to the other, then add a minimum of 4" (2" each side), for blind overlap. Record the measurement rounded **up** to the nearest 1/8".
- For **HEIGHT (B)**, measure from the top of the window sill up to the desired top of the blind. Again, record the measurements rounded **up** to the nearest 1/8".
- Outside mounted blinds are fabricated to order dimensions.

**MEASURING GUIDELINES**

**Kensington Side Cut-Out Blinds** have rectangular areas removed from the blind to avoid obstructions (such as an air-conditioner). Cut-outs may be from the bottom corners of the blind. While a template is not required, when ordering a cut-out blind, a **diagram** of the blind with **all dimensions noted** must be included.

**DIAGRAM**

When ordering, include a diagram showing all dimensions:

- A ..... Overall Width of Blind
- B ..... Overall Height of Blind
- C ..... Bottom Width of Blind
- D ..... Width of Cut-Out (max. 4 inches)
- E ..... Height of Cut-Out
- F ..... Height of Shorter Side

## MEASURING FOR VALANCES

### MEASURING FOR VALANCES

- Valances and returns are cut at the inside measurement. The inside measurement refers to the inside wall of the valance or the returns. (*Lengths A B and C D in Fig. 1*).
- Kensington strongly recommends measuring for the exact size of the valance needed when measuring for your Kensington Faux Wood Collection Blinds.

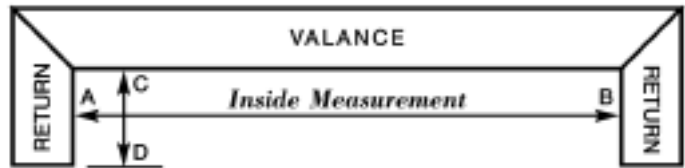

Fig. 1

### INSIDE MOUNT (IB) VALANCES

(Made without returns)

**STANDARD VALANCE:**

Valance is cut to the ordered blind width minus  $\frac{1}{8}$ ".

**CUSTOM VALANCE:**

Valance is cut exactly to the ordered valance width.

**PLEASE NOTE:**

If a window is not square, the width may vary at different points on the window. If the ordered width of the blind is less than the width that the actual valance will cover, then the valance will appear short in width. Please order a custom size valance when the width at the top of the window, where the valance is attached, is greater than the ordered width. (*See Window Measurement section to obtain a full description of how to properly measure a window for Kensington Alloy Wood Blinds*).

### OUTSIDE MOUNT (OB) VALANCES

(Made with returns)

**STANDARD VALANCE:**

Valance is cut to the ordered blind width plus  $\frac{5}{8}$ " on the inside of the valance (*length A to B on Fig. 1*) with standard returns.

**CUSTOM VALANCE:**

Valance is cut to the ordered valance width on the inside of the valance (*length A to B on Fig. 1*) with returns made as ordered. Always make sure the width ordered is large enough to clear the width of the headrail and brackets.

### COMMON VALANCE

A Common Valance is made to cover more than one blind to create a unified look. (Can be either an IB or OB valance. Exact measurements must be supplied).

### VALANCE RETURNS

- Returns can be cut as small as  $\frac{1}{2}$ " minimum inside (*length C to D on Fig. 1*)

## SPECIFICATIONS ~ MOTORIZATION

### FEATURES AND BENEFITS

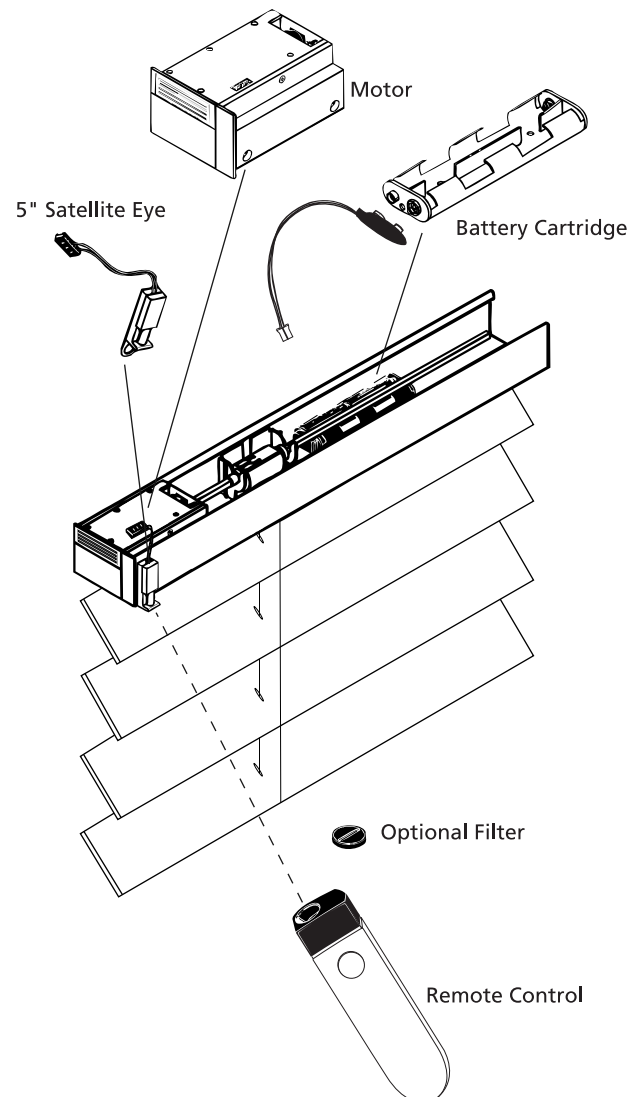

- Top of the line battery powered standard motor, capable of tilting blinds up to 15 pounds.
- Top of the line battery powered heavy duty motor, capable of tilting blinds up to 30 pounds.
- Internal brake holds blind in place.
- Provides tight slat closure to eliminate light gap, with no roll back.
- Limit switches allow blind to stop when completely closed.
- Limit switches prevent the blind and motor from potential damage.
- 5" Satellite Eye standard, optional 10" Satellite Eye extends receiving eye for cornice applications.
- Motor is fully enclosed in the headrail.
- No unsightly battery packs or controls.
- Minimum of 4 1/2" end routes necessary.
- No tilt wand or cord punch necessary.
- Installs with standard installation hardware.

### BATTERY CARTRIDGE *(Batteries Included)*

- (4) AA lithium or alkaline batteries.
- Lithium battery life expectancy 3 - 5 years.
- Cartridge enclosed in the headrail with no unsightly cables.

### REMOTE CONTROL *(Batteries Included)*

- One button remote that operates up to 50' away.
- Signal not affected by florescent or halogen lighting.
- Operational distance may be affected by bright sunlight.
- Operates an unlimited number of blinds without changing channels.
- Remote filter available for bay window applications or side by side blinds.
- Operates with (3) AA alkaline batteries (lithium not recommended for remote).

### WARRANTY

- 5 year Warranty.

### BLIND SIZE CHART

Product Type	Max. Sq. Ft. Standard Motor	Max. Sq. Ft. Heavy Duty Motor
2" Faux Wood	22'	46'

- Minimum width 18 3/4"

Note: To calculate square footage of a blind, multiply blind height (in inches) times the blind width (in inches) then divide by 144.

CARE AND CLEANING

Periodic dusting with a feather duster or vacuum cleaner brush is all Kensington Faux Wood Blinds should ever require. The exterior finish on Kensington Faux Wood Blinds resists chipping, cracking, fading and is inherently dust repellent.

If necessary, Kensington Faux Wood Blinds can be cleaned with soap and water to remove stains. Kensington Faux Wood Blinds are fully washable and will not warp if exposed to water or humid conditions.

LIMITED LIFETIME WARRANTY

**Kensington Faux Wood Blinds**

Kensington Faux Wood Blinds are warranted to be free from defects in materials and workmanship for as long as the original retail purchaser owns the product, provided that the products were properly installed in residential dwellings, the products were made or assembled exclusively from Kensington materials and components, and Kensington recommendations were followed with regard to limitations and specifications.

The obligation of Kensington and its licensed fabricators and distributors is limited to repair or replace the blinds or components found to be defective and excludes shipping charges and labor costs for measuring and installation. Repairs will be made with like or similar parts.

This warranty does not apply to conditions caused by normal wear and tear upon the product.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES OR WARRANTIES. In no event shall Kensington or its licensed fabricators or distributors be liable or responsible for INCIDENTAL OR CONSEQUENTIAL DAMAGES or for any other direct or indirect damage, loss, cost, expense or fee.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion or limitation may not apply to you.

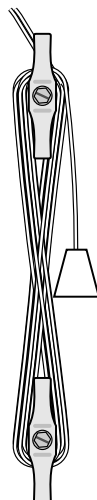

CHILD SAFETY

Be aware that it is possible for children to become entangled in window covering cords. To reduce the risk of accidents, all cords must be kept out of the reach of children. Cord cleats are an effective way to implement this essential precaution.

Mount the cord cleat at a safe height, taking into account furniture or other objects upon which a child may climb. Then, after each use of the blind, simply wrap the excess cord around the cleat.

Cord cleats are included with every Kensington Wood Blind. Kensington Wood Blinds with Continuous Cord System include a Cord Tensioner that keeps the cord taut to minimize any danger.
