## *Kensington Honeycomb Shades Program Summary*

- Available in a wide array of fabric styles and unique colors to compliment any home décor.
- Colors stay true even in the face of direct sunlight.
- A variety of light control and privacy options allow the homeowner to keep their home comfortable at all times.
- Honeycomb Shades protect interior home furnishings from harmful Ultra-Violet rays.
- The insulating properties of Honeycomb Shades improve a home's energy efficiency.
- A neutral backing provides an attractive, uniform look from the outside.
- In addition to Standard Rectangular Shades, Kensington offers a wide selection of unique lifting systems and specialty options including:
  - Ascent Motorized System, Standard and Top-Down option
  - Longitude Vertical System
  - Standard Continuous Cord System
  - Deluxe Cordless Lift System and Top-Down/Bottom-Up Cordless
  - Two-on-One Headrail
  - Two-on-One Headrail with the Standard Continuous Cord System
  - Top-Down and Top-Down/Bottom-Up Shades
  - Day-Night Shades
  - Top-Down Arches
  - Moveable and Stationary Fan Style Arches
  - Moveable and Stationary Quarter Circles
- Reliable Standard hardware system includes color coordinated components.

## FABRIC COLLECTIONS

### ARISTOCRAT HONEYCOMB SHADES

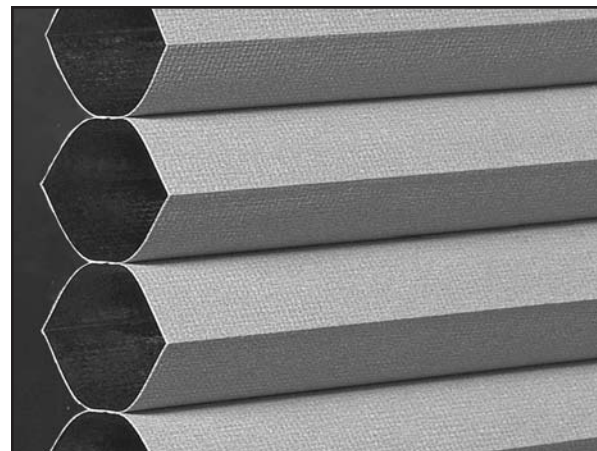

- 3/4" Single Cell - Semi-Sheer
  - Soft, beautiful fabric that is perfect for Day-Night Shades.
  - Available in six colors.
- 3/8" Single Cell and 3/4" Single Cell - Blackout
  - These fabrics provide the highest level of light and privacy control which makes them perfect for bedrooms or media rooms.
  - Available in seven colors and six colors respectively.
- 3/8" Single Cell - Textures
  - Masculine prints make these Honeycomb fabrics fashionable and appealing.
  - Two textures available in four colors each.
- 3/4" Single Cell - Linen
  - Classic Linen appearance will dress up any window with these warm subtle colors.
  - Available in five colors.
- 3/8" Soft Double Cell
  - This fabric is soft and silky and adds a touch of elegance to any room décor.
  - Available in 14 colors.

### ABBEY COURT HONEYCOMB SHADES

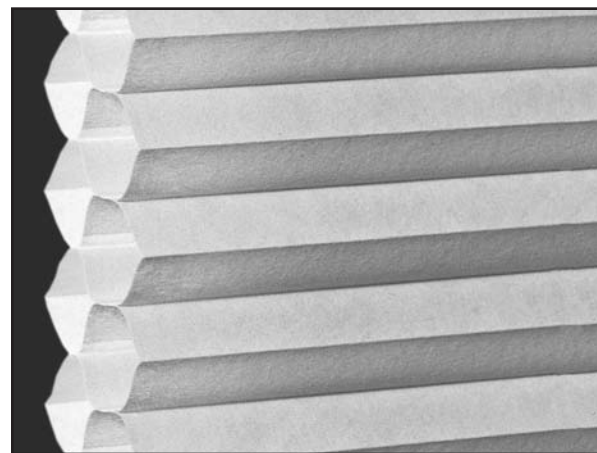

- 1/2" Double Cell Translucent
  - This high quality fabric is perfect for any application, pair it with the Deluxe Cordless Lift System for the ultimate in child safety.
  - Available in 12 colors.
- 3/8" Single Cell and 3/4" Single Cell - Translucent
  - The suede-like appearance of these fabrics has a soft appeal that will add warmth to any room.
  - Available in 16 and 12 colors respectively.
- 3/8" Double Cell Translucent
  - This fabric is available in our broadest color palette with 34 colors to choose from.
- 3/8" Double Cell - Flame Resistant
  - This fabric meets National Fire Code Standards for window treatments including: NFPA 701, Code 19, California ADM, The Department of Transportation Motor Vehicles Safety and Standards 302 for Flammability of Interior Materials.
  - Available in five colors.

### ANDOVER HONEYCOMB SHADES

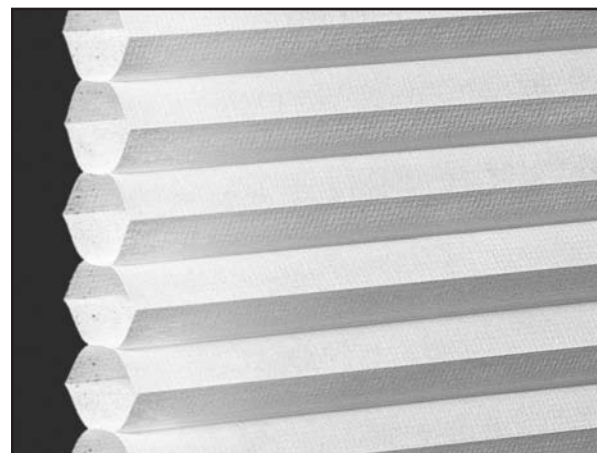

- 1/2" Single Cell - Translucent
  - This fabric will dress up any window. Make it a Top-Down - Bottom-Up for greater light control and privacy options.
  - Available in 15 colors.

**ARISTOCRAT  
3/4" SINGLE CELL - BLACKOUT**

**ABBEY COURT  
1/2" DOUBLE CELL - TRANSLUCENT**

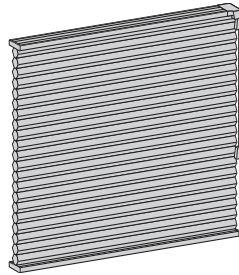

**ANDOVER  
1/2" SINGLE CELL - TRANSLUCENT**

## FEATURES AND OPTIONS

**STANDARD  
RECTANGULAR**

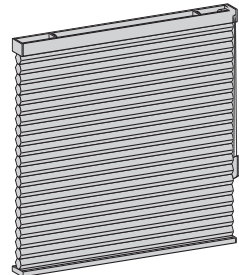

Traditional cord operated Honeycomb Shade that raises from the bottom up and stacks at the top.

STANDARD RECTANGULAR

**CONTINUOUS  
CORD SYSTEM**

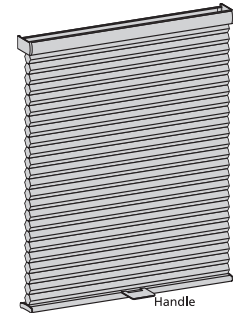

Cord design ensures the shade will open and close smoothly and evenly. The cord is shorter than the traditional dangling cord, making for a neater appearance. A special clutch system keeps the shade at the exact height desired. Ideal option for larger shades, eliminating long, cumbersome dangling cords.

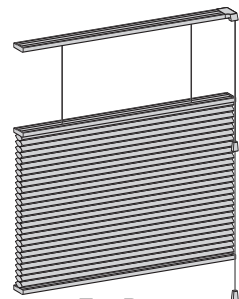

CONTINUOUS CORD

**DELUXE CORDLESS  
LIFT SYSTEM**

Stylish cordless system eliminates the traditional exposed cord and allows easy adjustment by lifting or lowering the shade by hand. Eliminates danger of dangling cords to children and pets. Also available in Top-Down/Bottom-Up Cordless.

DELUXE CORDLESS  
LIFT SYSTEM**TOP-DOWN**

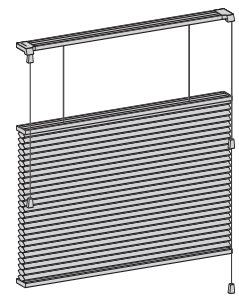

Ensuring privacy while allowing natural light in, this top-down shade is a lovely enhancement to any room. When completely open, this shade stacks neatly at the bottom of the window.

TOP-DOWN

**TOP-DOWN/  
BOTTOM-UP**

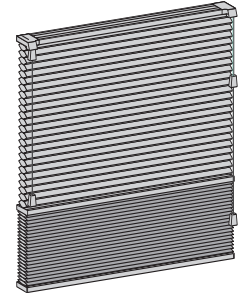

This shade can be opened from both the top and the bottom. Right and left hand controls move the middle and bottom rails to raise and lower the shade. This style is ideal for letting natural light in through the top and preserving privacy below. It also allows light to flood a room by opening completely from the bottom up.

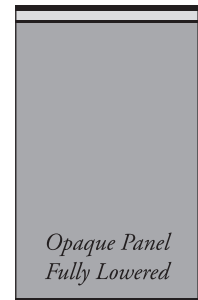

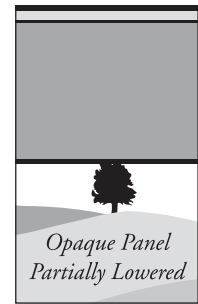

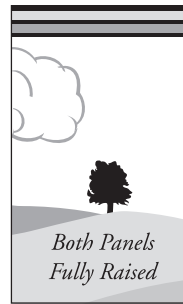

TOP-DOWN/BOTTOM-UP

**DAY-NIGHT**

This style shade utilizes two different fabrics on one shade. A translucent fabric is used on the top and a room-darkening fabric on the bottom, connected by a moving rail. This shade provides a variety of light control and privacy options.

DAY-NIGHT

**AVAILABLE FABRIC COMBINATIONS  
FOR DAY-NIGHT SHADES**

The fabric combinations for Day-Night Shades are restricted due to hardware compatibility. Please see the following combinations that can be done with a Day-Night Shade.

Any two fabrics within this list can be paired together for a Day-Night Shade:

- Aristocrat 3/4" Single Cell – Semi-Sheer
- Aristocrat 3/4" Single Cell – Blackout
- Aristocrat 3/4" Single Cell – Linen
- Abbey Court 1/2" Double Cell – Translucent
- Abbey Court 3/4" Single Cell – Translucent

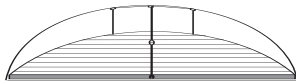

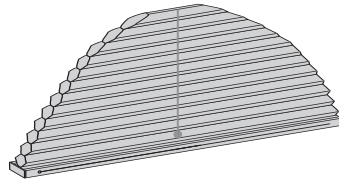

Any two fabrics within this list can be paired together for a Day-Night Shade:

- Aristocrat 3/8" Single Cell – Blackout – *Bottom Panel Only*
- Aristocrat 3/8" Single Cell – Textures
- Abbey Court 3/8" Single Cell – Translucent
- Abbey Court 3/8" Double Cell – Translucent
- Abbey Court Flame Resistant – *Bottom Panel Only*
- Andover 1/2" Single Cell - Translucent

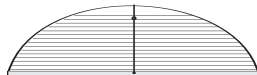

FEATURES AND OPTIONS

**TOP-DOWN ARCH**

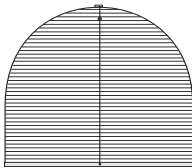

This fashionable shade covers almost all arched windows. It is *fully operable* and easy to maneuver using a tension cord. *Template required for all top-down arches.*

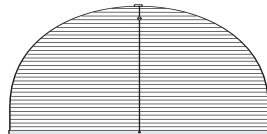

ARCH LOWERS FROM TOP

EYEBROW WINDOWS

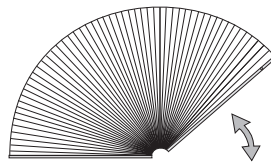

BULLET-SHAPED WINDOWS

PALLADIUM WINDOWS

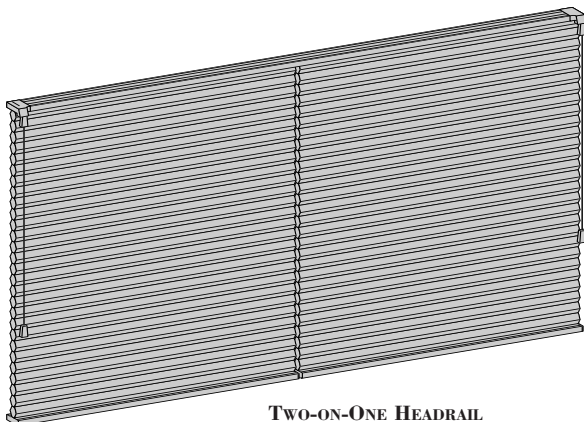

**MOVEABLE ARCH**

The starburst design is ideal for any *perfect arch* opening and is fully operable. Not only will it block unwanted light from those hard-to-reach windows, this specialty shade will add elegance to any room. Only available as a perfect arch.

**TWO-ON-ONE HEADRAIL**

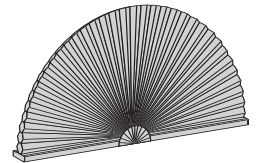

For very large single windows or two large windows side-by-side, this specialty shade provides the appearance of a single shade, with two sections operating independently. *Also available with Standard Continuous Cord System.*

TWO-ON-ONE HEADRAIL

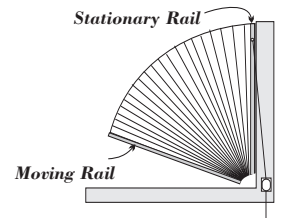

**STATIONARY ARCH**

The classic starburst design can be ordered stationary to fit almost any arch dimensions. *Template required for all imperfect arches.*

**MOVEABLE QUARTER CIRCLE**

This specialty shade is a beautiful accent for a quarter circle window. It is *fully operable* to control the amount of light entering a room. The height must equal the width.

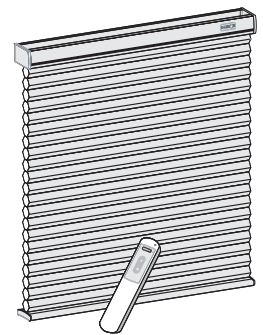

**STATIONARY QUARTER CIRCLE**

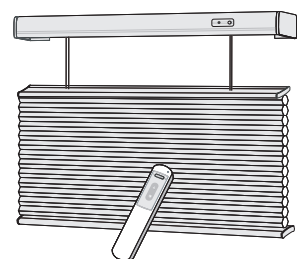

The stationary quarter circle provides constant light control for those hard-to-reach windows while adding a touch of style. The height must equal the width.

**ASCENT MOTORIZED SHADES**

Perfect for hard-to-reach windows, the battery operated remote control system will allow you to control shades with the touch of a button. Available as Standard or Top-Down, the Ascent Motorized system eliminates dangling cords and the hazards associated for children and pets. For more details on this system refer to page 27.

STANDARD

TOP-DOWN

HOW TO ORDER

The total retail price for a Honeycomb Shade is determined by the following information:

- Fabric selection
- The size of the shade ordered
- Options requested

**FABRIC SELECTION** - Each fabric uses a separate price chart located in the pricing section, pages 9 - 17 and 19 - 23.

- **Size Limitations:** Some options are only available in restricted sizes.

**SIZE OF SHADE** - On the appropriate price chart, the shade's base price is determined by the size of the shade.

- Round **UP** the shade's measured width and height to the nearest width and height dimensions on the chart.
- Locate the shade's base price - follow down the column under the shade's rounded-up width until it crosses the line of prices for the shade's rounded-up height. Where the two intersect is the shade's correct base price.

**REQUESTED OPTIONS** - Below each price chart is information for that fabric's available options. Add the appropriate **surcharges** to the shade's base price to arrive at the shade's total price.

**ORDERING TIPS** - Use the order forms on pages 30 and 31 when ordering Honeycomb Shades:

- **Size Limitations:** Some options are only available in restricted sizes. See pages 7 and 8 for details by fabric.
- **Day-Night Shade Fabric Restrictions:** Fabric combinations are limited to two fabric groups. Refer to the appropriate specifications page for details.
- **Continuous Cord Recommendations:** Large shades, within the boxed area of the price charts, are easier to operate using a continuous cord system.
- Be sure to use exact width and height dimensions when ordering.

**PRICING EXAMPLE** - Determine the final price for the following shade (*Fig. 1*):

- Honeycomb Shade
- Fabric: Abbey Court 3/4" Single Cell Translucent
- Size: 49" x 71"
- Options: Deluxe Continuous Cord

1. Locate the appropriate price chart, **Price Group A5** on page 14.
2. Round **UP** the shade's measurements to the nearest width and height on the chart, **54" x 72"**.
3. Find the correct **base price**, where the rounded-up width price column crosses the rounded-up height price line. . . . . **\$345.00**
4. Add the **surcharge** for Deluxe Continuous Cord System from the corresponding rounded-up width price column . . . . . **+68.00**
5. Add the three together for final price. . . . . **\$413.00**

IMPORTANT ORDERING INFORMATION

In addition to the correct price, all orders must include the following information:

- Fabric selection
- Color name and color number
- All options requested
- Position of controls, left or right side
- Accurate measurements for the shade's width and height
- Additional required dimensions for specialty shape applications. Template required. (*See page 24*)
- Type of mounting required:
  - Inside Mount (IB)
  - Outside Mount (OB)
  - End Mount (EM)
- Desired window/wall clearance
- Other options such as hold-down brackets

<b>Abbey Court 3/8" Double Cell Flame Resistant</b>	Width: Height:	N/A	N/A	60" 30"	N/A	N/A
<b>Andover 1/2" Single Cell Translucent</b>	Width: Height:	84" 72"	72" 36"	72" 36"	48" 48"	48" 48"

*Note: Size limitations on Top-Down Arches: Though our maximum width is 84" and our maximum length is 72", there are limitations on some larger sizes due to excessive weight. If the width exceeds 66", the maximum height is 60". If the width exceeds 72", the maximum height is 48".*

\* A template is required for all Top-Down Arches and for imperfect Stationary Fan Style Arches.

† Moveable Fan Style Arches are only available as a Perfect Arch: height is 1/2 of width.

• For all Quarter Circles: the height must equal the width.

• 6 foot Optional Extension Pole . . . \$75

ASCENT MOTORIZED MAXIMUM HEIGHT CHARTS

- Note that charts differ for Standard and Top-Down shades.

## LONGITUDE SHADES FEATURES, OPTIONS AND MEASUREMENTS

### LONGITUDE SHADES

- Longitude Honeycomb Shades open and close from side to side to accommodate sliding glass doors, room dividers and French doors, perfectly.
- Longitude Honeycomb Shades are available in five stacking configurations:
  - Left Stack
  - Right Stack
  - Split Stack
  - Center Stack
  - Dual Panel - is a Center Opening shade with a different fabric on each side. Each panel can fully span the width of the window.

- Longitude Honeycomb Shades are available on Aristocrat 3/4" Single Cell Blackout, Aristocrat 3/4" Single Cell Linen Print and Abbey Court 3/4" Single Cell Translucent fabrics.

### SIZE SPECIFICATIONS

Minimum Width:	12"	Maximum Width:	168"
Minimum Height	24"	Maximum Height:	120"

*\*Note: For Split Stack or Dual Panel, specifications are per fabric panel.*

*\*Note: Split Stack Shades are available in widths up to 336". If width is greater than 168", it will be fabricated as two shades with a single valance piece to create the illusion of a single shade.*

### MOUNTING REQUIREMENTS

- Inside Mount: Minimum mounting depth required is 3/4"
- Flush Mount: Minimum mounting depth required  
 Aluminum Valance is 3 5/8"  
 Minimum mounting depth required  
 Alternative Wood Valance is 4"
- Outside Mount: Minimum flat vertical surface required is 5/8"
- Fabric Stacking: 6 1/2"  
*\*Note: fabric stack is determined by hardware and not by ordered width*

### FINISHED DIMENSIONS

- Inside Mount:
  - Headrail unit will measure ordered width less 3/16"
  - Shade height will measure ordered height less 1/2"
  - Valance width (non-flush) will measure ordered width plus 1 1/4"
  - Valance width (flush) will measure ordered width less 3/16"
- Outside Mount:
  - Headrail unit will measure ordered width
  - Shade height will measure ordered height
  - Valance width will measure ordered width plus 1 1/4"
  - \*width and height measurements may vary +/- 1/8".*

### NO CHARGE OPTIONS & HARDWARE INFORMATION

#### No-Charge Options

- Extension brackets
- Spacer blocks

Please note on order any options required.

#### Hardware Information

- The top and vertical rails are available in white only.
- Both the aluminum and alternative wood valances are coordinating white to the rail.
- Standard handle height ranges from 40" to 50" from bottom of moving rail; specify any desired variation.

## MEASURING INSTRUCTIONS

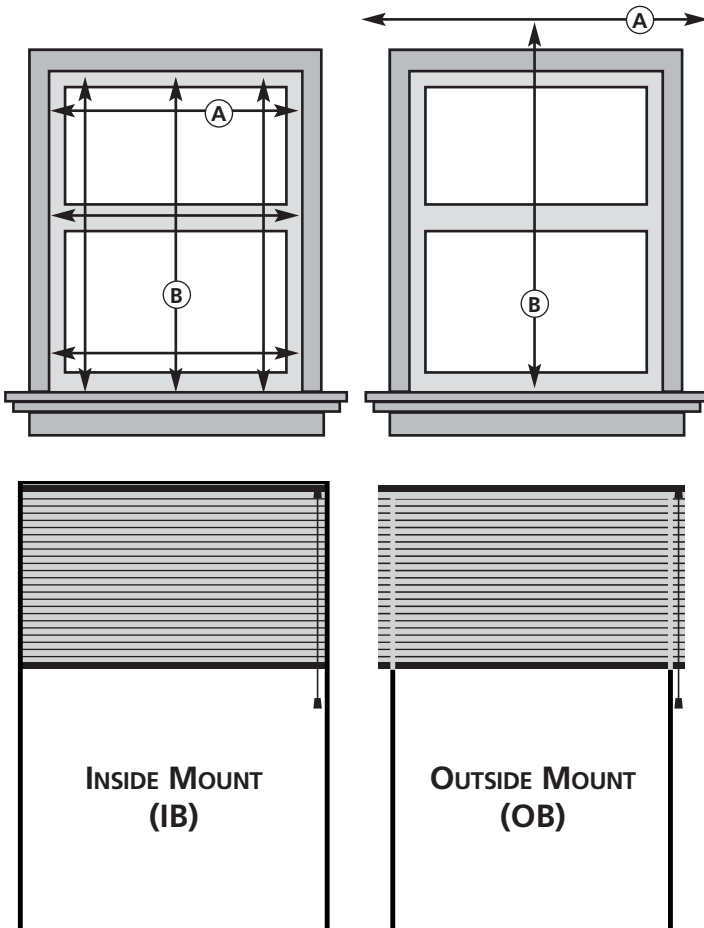

Accurate measurements are essential, for both correct pricing and proper fit. Use only a hard-edged ruler or steel tape, never a cloth tape. For *inside mounts*, width measurements (A) should be rounded **down** to the nearest 1/8" to prevent blind from binding against the window casing.

### INSIDE MOUNT

Use a steel tape to measure the opening width (A) at three different places, and use the narrowest dimension when ordering. Be exact! The factory will make the shade 3/8" narrower so it will not rub against the window casing. Measure the height (B) of the window casing from the top (Soffit) down to the sill.

### OUTSIDE MOUNT

Use a steel tape to measure the exact width (A) and height (B) of the area to be covered. It is recommended that the shades overlap the window by at least 1 1/2" on each side. When installation has no sill, allow the shade to overlap the bottom of the window casing by at least 1 1/2". Shade fabric will measure width indicated on the order form.

## FIVE STEPS TO AN ACCURATE TEMPLATE

1. Tape butcher paper or heavy wrapping paper over the window opening, allowing plenty of overlap. Do not use paper that has ever been folded; a template can have no folds or creases.
2. Draw an exact outline of the window opening. Do this by carefully tracing over the inside edge of the window frame.
3. Remove the paper from the window opening. If the blind is an outside mount, add the desired amount of overlap to the window outline and draw a second outline around it to match the shape of the finished blind.
4. Mark the blind dimensions on the template. Check that the template dimensions match the measurements of the actual window opening.
5. Identify the template and its orientation. Write the customer's name and PO# on the template, and mark the ROOM SIDE and TOP. Roll up the template and place it in a mailing tube.

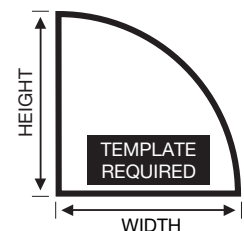

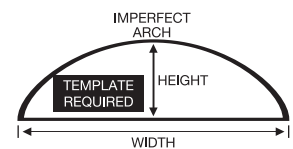

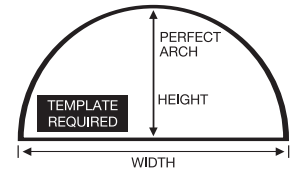

**Do not fold the template.**

**IMPORTANT:** Template must be cut out in the exact shape of the window opening and tested in window for correct fit.

For any shade requiring a template, there will be a template surcharge of \$50 added to the price of the shade.

## ARCHES/QUARTER CIRCLES

1. For inside mounts, measure the exact width and height inside the window opening.
2. For outside mounts, measure the desired width and height.
3. Measure the height at its tallest point.
  - In *perfect* arches, height will equal one-half the width.
  - With *imperfect* arches, or eyebrows, exact height/width relationships do not occur. Extra care must be taken to ensure a good fit.
  - With quarter circles, height must equal width.

**FINISHED DIMENSIONS**

**Inside Mount:**

- Fabric will measure ordered width less: ..... 3/8"
- Headrail\* will measure ordered width less: ..... 3/16"

**Outside Mount:**

- Fabric will measure ordered width.
- Headrail\* will measure ordered width plus: ..... 3/16"

**Exact (End Cap to End Cap):**

- Fabric will measure ordered width less ..... 3/16"
- Headrail\* will measure ordered width.

\*Headrail Measurements include end caps.  
Width and Height Measurements may vary +/- 1/8".

**No Charge Options:**

- Special Cord Lengths
- Extension Brackets
- Hold Down Brackets
- Cord Cleats
- Spacer Blocks
- Side Mount

**Note on order any options required.**

**MOUNTING**

**Standard Rail:**

Minimum Shallow Mounting Surface:	1/2"
Minimum Flush Inside Mounting Surface:	2"
Minimum Outside Mounting Surface:	3/4"

**Deluxe Rail:**

Minimum Shallow Mounting Surface:	1/2"
Minimum Flush Inside Mounting Surface:	2 1/2"
Minimum Outside Mounting Surface:	3/4"

**Standard Continuous Cord System:**

Minimum Shallow Mounting Surface:	3/4"
Minimum Flush Inside Mounting Surface:	1 3/4"
Minimum Outside Mounting Surface:	1/2"

**Deluxe Continuous Cord System:**

Minimum Shallow Mounting Surface:	1"
Minimum Flush Inside Mounting Surface:	2"
Minimum Outside Mounting Surface:	1"

**Deluxe Cordless System:**

Minimum Shallow Mounting Surface:	3/4"
Minimum Flush Inside Mounting Surface:	2"
Minimum Outside Mounting Surface:	1/2"

**Ascent Motorized System: 3/8" cell size**

Minimum Shallow Mounting Surface:	5/8"
Minimum Flush Inside Mounting Surface:	2"
Minimum Outside Mounting Surface:	3/4"

**Ascent Motorized System: 3/4" cell size**

Minimum Shallow Mounting Surface:	5/8"
Minimum Flush Inside Mounting Surface:	2 1/2"
Minimum Outside Mounting Surface:	3/4"

**RAIL MEASUREMENTS**

When measuring and installing, please keep in mind the following rail measurements.

**Standard Rail:**

Depth:	1 7/16"
Height:	1/2"

**Deluxe Rail:**

Depth:	1 7/8"
Height:	1/2"

**Standard Continuous Cord System:**

Depth:	1 11/16"
Height:	1 5/16"

**Deluxe Continuous Cord System:**

Depth:	2"
Height:	2"

**Deluxe Cordless System:**

Depth:	1 11/16"
Height:	1 5/16"

**Ascent Motorized Lift System 3/8" fabrics:**

Depth:	2"
Height:	1 5/8"

**Ascent Motorized Lift System 3/4" fabrics:**

Depth:	2 1/2"
Height:	1 5/8"

**WIDTH LIMIT FOR SIDE MOUNT BRACKETS**

There is a recommended 48" width limit on shades installed with side mount brackets. End mount Ascent Motorized shades are limited to 65" in width.

**CUT OUTS**

- Cut-outs are available with all fabrics
- Cut-outs are \$50 per side and are subject to approval by the fabricator
- There are no limits on cut-out heights. There are, however, limits on cut-out widths:

Shade widths less than 18": 3" maximum cut-out

Shade widths greater than 18": 5" maximum cut-out

## STACKING HEIGHTS - STANDARD RECTANGULAR

NOTE: Drop refers to shade fully extended. Measurements do not include headrail and bottomrail. Refer to page 25 for all rail measurements.

ASCENT MOTORIZED LIFT SYSTEM OPTIONS

- Headrail is available in white and cream. Please specify when ordering. Bottom rail is color coordinated to the fabric.
- Battery wand and infrared eye within the headrail are standard. Other features are below along with associated surcharges. Please indicate any options when ordering.

*The battery wand fits inside the headrail*

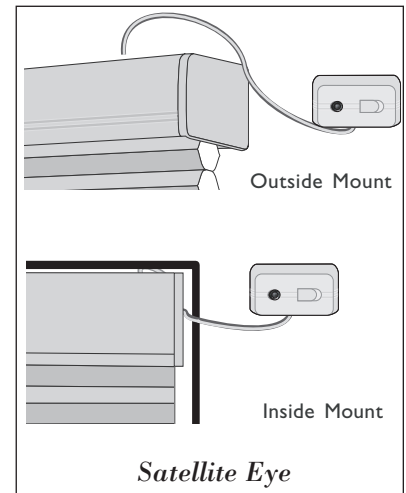

- The short battery wand, for shades up to 26" wide, uses 8 AAA batteries. The long wand, for shades over 26" wide, uses 8 AA batteries. Life of batteries is approximately 1 1/2 years depending on usage. Replace batteries when shade begins to operate slowly. Only use alkaline batteries.

Remote Control: **\$52**  
 (Purchase at least one hand-held remote control per order.)

**Satellite Eye**

The satellite eye is an external infrared eye to be used when a window treatment obstructs the headrail. Three cable lengths are available:

- Satellite Eye 20" Cable: **\$27**
- Satellite Eye 4' Cable: **\$37**
- Satellite Eye 8' Cable: **\$44**

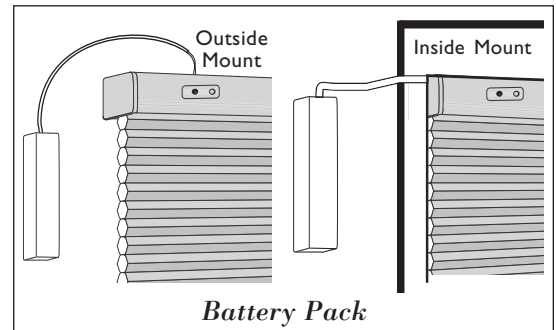

*Satellite Eye*

**Battery Pack**

The satellite battery pack will make changing batteries easier on tall or out-of-reach windows. Three cable lengths are available:

- Battery Pack 15" Cable: **\$45**
- Battery Pack 4' Cable: **\$52**
- Battery Pack 8' Cable: **\$59**

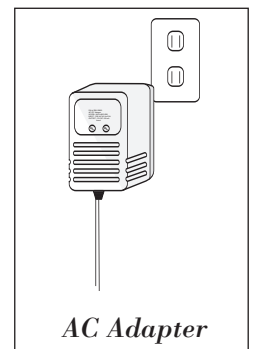

*Battery Pack*

**AC Power Adapter**

Eliminate the need for batteries by using the AC Adapter with any standard wall outlet. Three cable lengths are available:

- AC Adapter 12' Cable: **\$61**
- AC Adapter 16' Cable: **\$72**
- AC Adapter 25' Cable: **\$79**

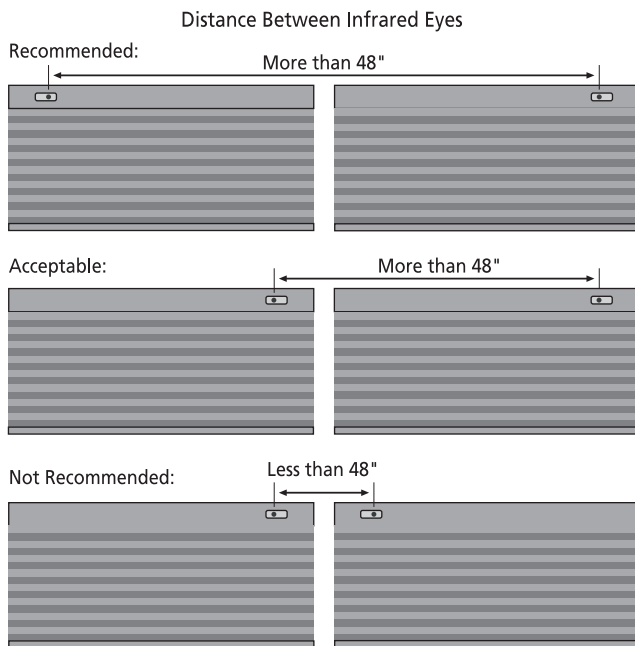

*AC Adapter*

## ASCENT MOTORIZED LIFT SYSTEM ORDERING CONSIDERATIONS

Strong sunlight or artificial light could interfere with operation of the infrared eye. It may be necessary to make adjustments in room lighting so direct light does not shine into the infrared eye.

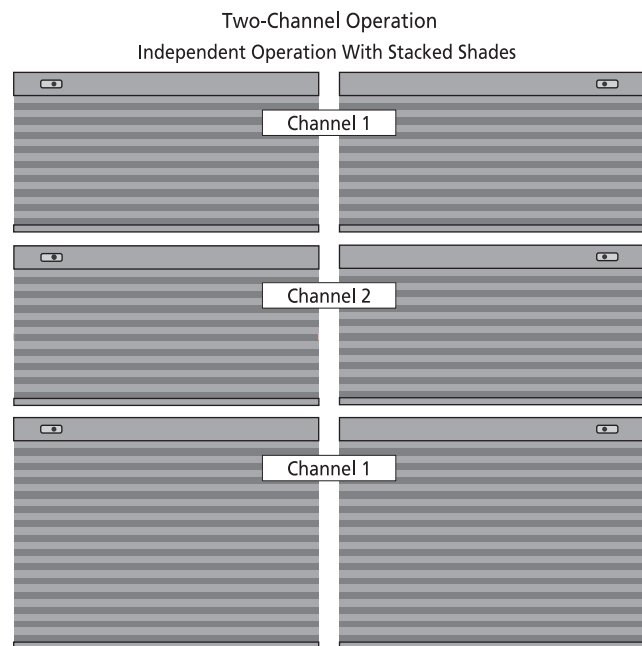

### Distance between Infrared Eyes

- It is important to keep adequate distance between infrared eyes to avoid unintentional activation of one shade by the remote control signal intended for another shade.
- For independent shade operation, the recommended distance between infrared eyes is 48".
- Shades may be ordered with infrared eyes placed at opposite ends of adjacent headrails. Please indicate position of eye at time of ordering.

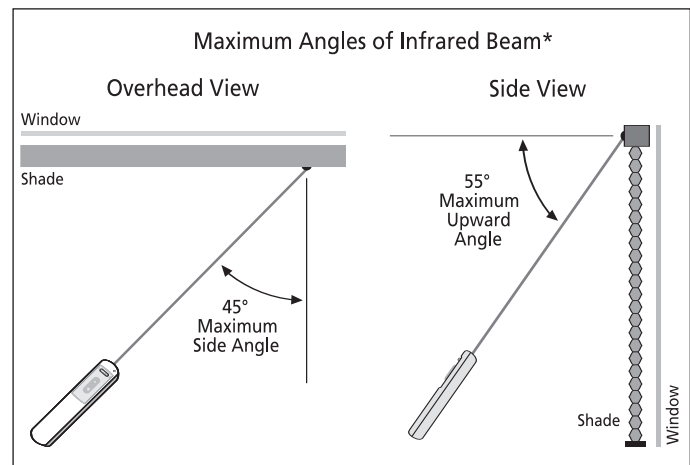

### Two-Channel Operation

- Channel 1 is standard on the remote transmitter and is normally the only channel needed.
- If the minimum of 48" separation between infrared eyes is not possible, selected shades can be set for channel 2 operation. Please specify "Channel 2" operation when ordering.
- 2 Channel operation is recommended when shades are stacked, on bay windows or on banks of shades.
- A switch at the top of the remote control is used to change from one channel to the other.

## ASCENT MOTORIZED OPERATING SPECIFICATIONS

- The distance between the remote control and the infrared eye needs to be less than 30 feet.
- Maximum headrail or satellite eye mounting height is 16 feet.
- Maximum side angle of remote beam is 45 degrees.
- Maximum upward angle of remote beam is 55 degrees.

HONEYCOMB ENERGY EFFICIENCY AND LIGHT CONTROL DATA

The Kensington line of Honeycomb shades offers a wide range of insulation and light values. Depending on the application requirements, one or more of these products is sure to provide the desired level of comfort and ambiance.

FABRIC TYPE	WINTER R-VALUE DOUBLE GLAZING	SUMMER R-VALUE DOUBLE GLAZING	SUMMER SHADING COEFFICIENT DOUBLE GLAZING	% UV BLOCKAGE	LIGHT TRANSMISSION	SOUND ABSORPTION

\*Based on reported value of equivalent fabrics with duplicate cellular construction.

DEFINITION OF TERMS

**R-Values** measure resistance to heat flow. The higher the R-Value, the more insulation the product provides.

**Summer Shading Coefficient** measures the amount of heat passing through a covered window versus a bare window. The lower the number, the less heat is transferred. In summer, less heat transfer means a cooler room.

**% UV Blockage** measures the product’s effectiveness at preventing harmful ultraviolet rays from entering the home’s interior. The higher the percentage, the more UV rays are blocked.

**Sound Absorption** measures the amount of sound absorbed by the shade. The higher the number, the better the sound absorption.
