Kensington Pleated Shades Program Summary

Kensington Pleated Shades bring elegant styling, flawless function and design versatility to windows. Backed by a limited lifetime warranty, these beautiful shades offer many advantages, making them the perfect choice for a wide range of applications.

PLEATED SHADES

- 14 fashionable fabrics in a multitude of colors to complement individual style and preferences.
- Wide variety of light control options to meet any degree of light filtration and desired privacy.
- Privacy and blackout liners available for added light control.
- Premium color-coordinated hardware for a refined aesthetic appearance.
- High performance hardware systems for smooth, precise operation.
- Several design options including: top-down/bottom-up, stationary arch and two-on-one headrail shades.
- Quality construction for years of dependable service.

* A shade will have a visible seam when the ordered width is greater than the fabric's single panel maximum width. The single panel maximum width is noted in parenthesis next to the fabric name.

FABRIC/PRODUCT SPECIFICATIONS

FABRIC INFORMATION

- Maximum width of a single panel varies by fabric type. See price grids for maximum single panel width. Wider shades will have two visible seams.
- It is common with high quality woven textile fabrics for minor waviness to occur. These variations are considered inherent characteristics of this product and in no way detract from the beauty of the fabric.
- For Privacy and Blackout liners, use liner price grids on page 10 and add to price of shade. Liners are not available with Snowdonia.

Standard Rectangular Stack Height:				
Drop	48"	72"	84"	96"
Stack*	2 ¹ / ₄ "	2 ³ / ₄ "	3"	3 ¹ / ₄ "

*Measurements include head and bottom rails and vary with fabric type.

FINISHED DIMENSIONS

Inside Mount:

- Fabric will measure ordered width less: ³/₈"
- Headrail* will measure ordered width less: ³/₁₆"

Outside Mount:

- Fabric will measure ordered width.
- Headrail* will measure ordered width plus: ³/₁₆"

Exact (End Cap to End Cap):

- Fabric will measure ordered width less: ³/₁₆"
- Headrail* will measure ordered width.

*Headrail Measurements include end caps.
Width and Length Measurements may vary +/- ¹/₈".

NO CHARGE OPTIONS:

- | | |
|------------------------|----------------------|
| • Special Cord Lengths | • Extension Brackets |
| • Hold Down Brackets | • Cord Cleats |
| • Spacer Blocks | • Side Mount |

Note on order any options required.

MOUNTING

Standard Rail:

Minimum Shallow Mounting Surface:	1/2"
Minimum Flush Inside Mounting Surface:	2"
Minimum Outside Mounting Surface:	3/4"

Standard Continuous Cord System:

Minimum Shallow Mounting Surface:	3/4"
Minimum Flush Inside Mounting Surface:	1 ³ / ₄ "
Minimum Outside Mounting Surface:	1 ¹ / ₂ "

RAIL MEASUREMENTS

When measuring and installing, please keep in mind the following rail measurements.

Standard Rail:

Depth:	1 ⁷ / ₁₆ "
Height:	1 ¹ / ₂ "

Standard Continuous Cord System:

Depth:	1 ¹¹ / ₁₆ "
Height:	1 ⁵ / ₁₆ "

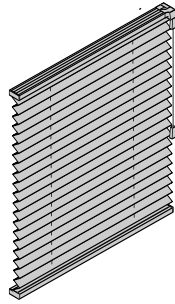

WIDTH FOR SIDE MOUNT BRACKETS

There is a recommended 48" width limit on shades installed with side mount brackets.

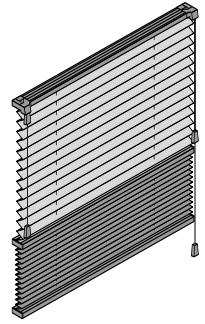

FEATURES AND OPTIONS

**STANDARD
RECTANGULAR**

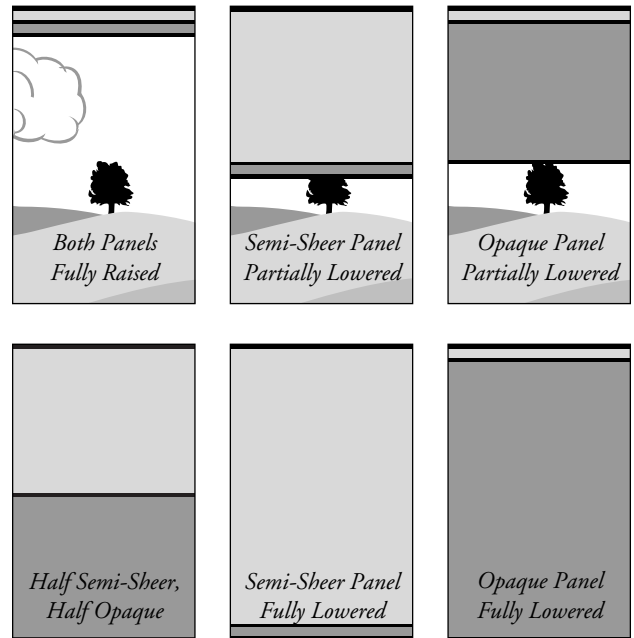

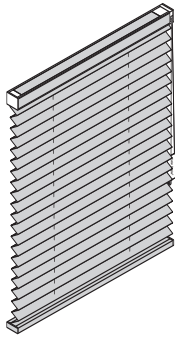

The traditional cord operated pleated shade that raises from the bottom up and stacks at the top.

**DAY-NIGHT**

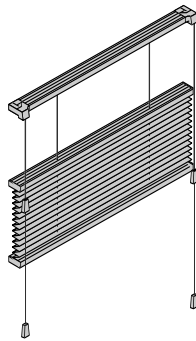

The Day-Night Shade allows you to choose two different fabrics to use on one shade. One fabric is used on the top and one on the bottom and a moving rail connects them. This shade provides a variety of light control and privacy options.

**CONTINUOUS
CORD SYSTEM**

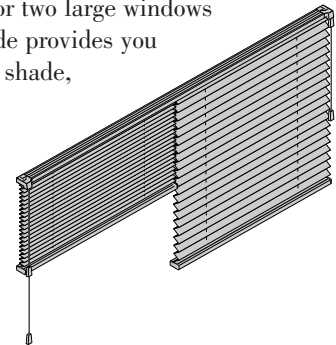

The continuous cord design ensures your shade will open smoothly and evenly. The cord is shorter than the traditional cord and makes for a neater appearance. The special clutch system will keep the shade at the exact height desired. This feature is the ideal option for larger shades, eliminating long dangling cords.

**TOP-DOWN/
BOTTOM-UP**

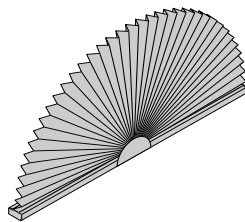

This option can be opened from both the top and the bottom. Right and left hand controls allow the shade to be lowered and raised. This style is ideal for letting natural light in through the top while preserving privacy below. It also floods the room with light by opening it completely from the bottom up.

**TWO-ON-ONE HEADRAIL**

For very large single windows or two large windows side by side, this specialty shade provides you with the appearance of a single shade, with two shades operating independently. Also available with a splicer or a Continuous Cord System.

**STATIONARY ARCH**

The classic starburst design can be ordered to fit almost any Perfect Arch dimensions.

HOW TO ORDER

The total retail price for a Pleated Shade is determined by the following information:

- Fabric selection
- The size of the shade ordered
- Options requested

FABRIC SELECTION - Each fabric uses a separate price chart located in the pricing section, pages 8 and 9.

- **Size Limitations:** Some options are only available in restricted sizes.

SIZE OF SHADE - On the appropriate price chart, the shade's base price is determined by the size of the shade.

- Round **UP** the shade's measured width and height to the nearest width and height dimensions on the chart.
- Locate the shade's base price - follow down the column under the shade's rounded-up width until it crosses the line of prices for the shade's rounded-up height. Where the two intersect is the shade's correct base price.

REQUESTED OPTIONS - Below each price chart is information for that fabric's available options. Add the appropriate **surcharges** to the shade's base price to arrive at the shade's total price.

ORDERING TIPS - Use the order form on page 15 when ordering Pleated Shades:

- **Size Limitations:** Some options are only available in restricted sizes. See pages 4 for details by fabric.
- **Day-Night Shade Fabric Restrictions:** Fabric combinations are limited to two fabric groups. Refer to the appropriate specifications page for details.
- **Continuous Cord Recommendations:** Large shades, within the boxed area of the price charts, are easier to operate using a continuous cord system.
- Be sure to use exact width and height dimensions when ordering.

IMPORTANT ORDERING INFORMATION

In addition to the correct price, all orders must include the following information:

- Fabric selection
- Color name and color number
- All options requested
- Position of controls, left or right side
- Accurate measurements for the shade's width and height
- Type of mounting required:
 - Inside Mount (IB)
 - Outside Mount (OB)
 - End Mount (EM)
- Desired window/wall clearance
- Other options such as hold-down brackets

PRICING EXAMPLE - Determine the final price for the following shade (Fig. 1):

- Pleated Shade
- Fabric: Avondale
- Size: 62" x 80"
- Options: Standard Continuous Cord System

1. Locate the appropriate price chart, **Price Group 2A** on page 8.
2. Round **UP** the shade's measurements to the nearest width and height on the chart, **66" x 84"**.
3. Find the correct **base price**, where the rounded-up width price column crosses the rounded-up height price line. **\$311.00**
4. Add the **surcharge** for Standard Continuous Cord System from the corresponding rounded-up width price column **+63.00**
5. Add the two together for final price **\$374.00**

STATIONARY FAN STYLE ARCHES

Width and Height Dimensions:

Minimum Width:..... 18"	Maximum Width:..... 72"
Minimum Height:..... 9"	Maximum Height:..... 36"

- Kensington Stationary Fan Style Arch shades are available as **perfect arches** only and do not require a template. The height must be exactly 1/2 the width.
- Make sure the radius of the arch remains constant to ensure a proper fit. (Fig. 2)
- It is common with high quality woven textile fabrics for minor waviness to occur. These variations are considered inherent characteristics of this product and in no way detract from the beauty of the fabric.
- Stationary fan style arches are not available with liners.

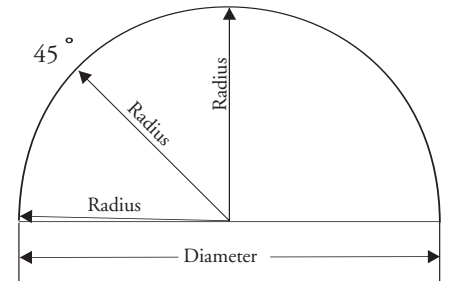

Fig. 2

SPECIFICATIONS AND FINISHED DIMENSIONS

DAY-NIGHT SHADES

See below for size specifications.

- Day-Night Shades are made with two operating cord locks, one on the left and right side of the shade.
- Day-Night Shades maximum width is limited to the maximum size of a single panel, which varies with fabric.
- Day-Night Shades use two fabric panels - one between the headrail and center rail, and one between the center rail and bottom rail. Either panel, or portion of a panel can be used to cover the window.
- Pleated fabric cannot be paneled in Day-Night applications. When using pleated fabrics, the maximum width of the whole shade (both panels) is limited to the fabric size. See pricing example at right.
- Pleated liners cannot be placed on the top fabric panel.
- On Day-Night Shades, top rail and center rail will coordinate with top fabric and bottom rail will coordinate with the bottom fabric.
- The cord and tassel will be coordinated with the bottom panel fabric.

DAY-NIGHT SHADE SURCHARGE:

Price each fabric panel as a separate shade using standard rectangular price grids, then add the two prices together.

PRICING EXAMPLE:

50" x 70" Regent fabric and 50" x 70" Notting Hill fabric

1. Price each fabric panel as a separate shade using standard rectangular price charts and add two prices together	
Use Price Group 2A for Regent fabric panel (54" x 72").....	\$232
Use Price Group 4A for Notting Hill fabric panel (54" x 72").....	+ 270
	\$510

MEASURING GUIDELINES

Accurate measurements are essential, for both correct pricing and proper fit. Use only a hard-edged ruler or steel tape, never a cloth tape. For inside mounts, width measurements (A) should be rounded **down** to the nearest 1/8" to prevent blind from binding against the window casing.

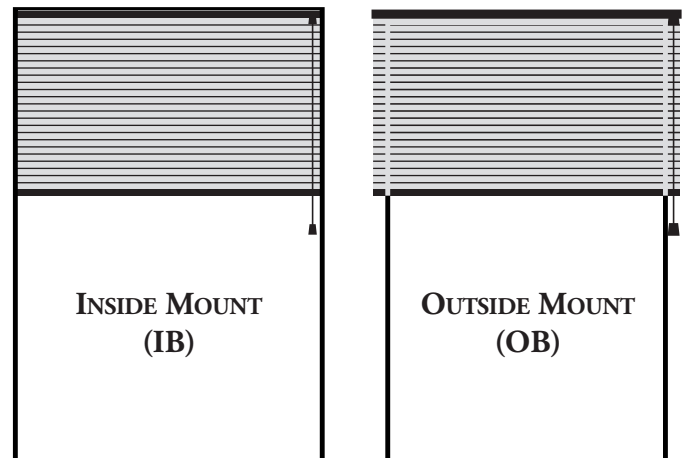

INSIDE MOUNT

Use a steel tape to measure the opening width (A) at three different places, and use the narrowest dimension when ordering. Be exact! The factory will make the shade 3/8" narrower so it will not rub against the window casing. Measure the height (B) of the window from the top (soffit) down to the sill.

OUTSIDE OR CEILING MOUNT

Use a steel tape to measure the exact width (A) and height (B) of the area to be covered. It is recommended that the shades overlap the window by at least 1 1/2" on each side. When installation has no sill, allow the shade to overlap the bottom of the window casing by at least 1 1/2". Shade fabric will measure width indicated on the order form.

CHILD SAFETY

Be aware that it is possible for children to become entangled in window covering cords. To reduce the risk of accidents, all cords must be kept out of the reach of children. Cord cleats are an effective way to implement this essential precaution.

Mount the cord cleat at a safe height, taking into account furniture or other objects upon which a child may climb. Then, after each use of the shade, simply wrap the excess cord around the cleat.

Cord cleats are included with every Kensington Pleated Shade. Please use them.

CARING FOR SHADES

While beautiful and pleasing to the eye, all our products are designed to be durable, easily cared for and easily cleaned. Our non-woven fabrics are inherently anti-static and repel dust but occasional feather dusting or vacuuming may be necessary to keep the fabrics clean and bright.

Spills and stains can be lightly blotted with a cloth or damp sponge. More difficult stains may require soaking in water with mild soap. For this, remove the shades from the window and submerge, soak and rub lightly. Lay flat to dry or place back in window and raise tightly to recrisp pleats. Please test any stronger cleaners on an unobtrusive portion of the shade.

LIFETIME LIMITED WARRANTY

The Kensington Pleated Shades will be free from defects in materials and workmanship for as long as the original purchaser owns the product, provided that the product was installed properly and in accordance with the pleated shade installation instructions. The limited lifetime warranty is extended to the original purchaser only, in the original window for which it was intended.

The warranty does not include any conditions or damages resulting from accidents, alterations, misuse, or failure to follow printed instructions on installation, cleaning and care, or repairs. This warranty also does not apply to conditions resulting from normal wear and tear. **THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES OR WARRANTIES.** In no event shall Kensington or its licensed fabricators or distributors be liable for **INCIDENTAL OR CONSEQUENTIAL DAMAGES**, or for any other damage. In some states, exclusion for incidental or consequential damages are not allowable.
