Kensington Roman Shades Program Summary

Whether fully lowered or raised, Kensington Roman Shades make any room look more distinctive. Their rich, sumptuous appearance has always been associated with luxury and complemented by unmatched functional excellence.

- 14 different fabrics, 107 different colors and 2 style options will be sure to compliment any home décor.
- Most fabrics come with a white backing to accomplish a uniform custom appearance to the outside.
- A wide range of opacity levels, including 14 different room darkening options, will be sure to meet any light filtration needs and desired privacy.
- Proven hardware system will ensure years of smooth, reliable operation, uniform fabric folds and no sagging.
- Popular design options include the Continuous Cord, Top-Down / Bottom-Up and Two-on-One Headrail.
- Both classic and flat pleat styles are accompanied by a matching fabric valance.

VALANCE

Each Kensington Roman Shade offers a 3” matching fabric-covered valance, which gives the shade a free-flowing, uninterrupted, finished look. When raised, the fabric gathers beneath the valance for a distinctive, stacked appearance.

THE BOTTOM RAIL

The Roman patented bottom rail does not interrupt the flow of the fabric and is virtually invisible throughout the operation of the shade.

LIFT AND SUPPORT SYSTEM

The Roman Shade lift system creates uniform folds throughout the shade. Spacing supports enable the shade to operate without creating sags or unevenness. In addition, when in the fully raised position, Kensington Roman Shades have the appearance of a decorative top treatment.

OPACITY

Kensington Roman Shades are available in a variety of fabric types, each offering a different degree of privacy and light control. Whether you want light to fill a room or prefer softer, more diffused light – or require more privacy and light control – you’ll find a Kensington Roman Shade to fit your needs. Look for the opacity rating on the back of each swatch deck.

Example of privacy levels

P	R	I	V	A	C	Y	L	E	V	E	L
1	2	3	4	5							

- **Room Darkening Fabrics** - Selected fabrics are available with a Room Darkening option*. These fabric collections are as follows: Avalon, Brushed Suede and Briarwood. Room Darkening fabrics come with an opaque liner adhered to the back. Testing has shown these Room Darkening fabrics to block 99% of all light. The style of the shade selected (Classic Style versus Flat Style) will impact the percentage of light blocked.

**This option must be requested at the time of order. A room darkening liner can not be added after fabrication.*

SPECIFICATIONS

STACK HEIGHT

Drop (Inches)	Stack (Inches)	Drop (Inches)	Stack (Inches)
16"	7 1/4"	66"	9 1/4"
24"	7 1/2"	72"	9 1/2"
30"	7 3/4"	78"	10"
36"	8"	84"	10 1/4"
42"	8 1/4"	90"	10 1/2"
48"	8 1/2"	96"	10 3/4"
54"	8 3/4"	102"	11"
60"	9"	108"	11 1/4"

* Measurements include head and bottom rails and may vary with fabric.

FINISHED DIMENSIONS

Inside Mount:

- Fabric will measure ordered width less: 3/8"
- Headrail* will measure ordered width less: 3/16"

Outside Mount:

- Fabric will measure ordered width.
- Headrail* will measure ordered width plus: 3/16"

Exact (End Cap to End Cap):

- Fabric will measure ordered width less: 3/16"
- Headrail* will measure ordered width.

*Headrail Measurements include end caps.
Width and Height Measurements may vary +/- 1/8".

No Charge Options:

- Special Cord Lengths
- Extension Brackets
- Hold Down Brackets
- Cord Cleats
- Spacer Blocks
- Side Mount

Note on order any options required.

MOUNTING INFORMATION

Minimum Shallow Mounting Surface:	1/2"
Minimum Inside Mount with Continuous Cord:	1 3/4"
Minimum Flush Inside Mounting Surface:	1 3/4"
Minimum Flush Inside Mount with Valance:	2"
Minimum Outside Mounting Surface:	3/4"

CORDLESS MOUNTING INFORMATION

Minimum Shallow Mounting Surface:	1"
Minimum Flush Inside Mounting Surface (no valance):	2 1/4"
Minimum Flush Inside Mount (with valance):	3 1/16"
Minimum Outside Mounting Surface:	7/8"
Minimum Side Mounting Surface:	1 1/4"

RAIL MEASUREMENTS

When measuring and installing, please keep in mind the following rail measurements.

Standard Rail:

Depth:	1 7/16"
Height:	1 1/2"

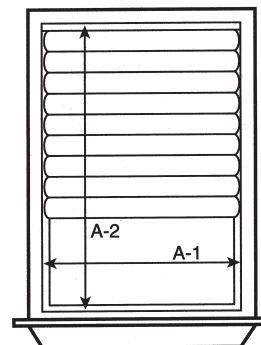

Standard Continuous Cord System:

Depth:	1 11/16"
Height:	1 5/16"

MEASURING GUIDELINES

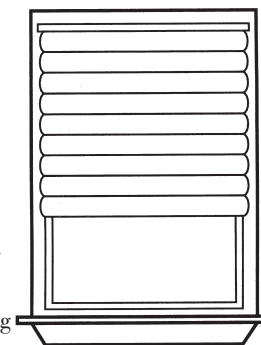

INSIDE MOUNT:

- Measuring the casing depth. A minimum of 1 3/4" casing depth is required for standard hardware inside mounts.
- Measuring the width of the window at three locations: top, middle and bottom. Record the most narrow dimension (Dimension A-1). The fabricator will deduct approximately 1/4" for clearance.
- Measure the height from top of soffit to desired length (Dimension A-2).

OUTSIDE OR PROJECTION MOUNT:

- Measure the exact width you want the shade to cover (Dimension B-1). Many prefer to measure the exact width of the opening and add four inches (2" to each side) to ensure privacy.
 - Measure the exact height you want the shade to cover (Dimension B-2). For additional privacy, order shade larger than the actual window itself.
- Projection mounts using angular supports allow shades to be mounted up to four inches away from the mounting surface. Specify projection mount when ordering. Projection mounts are recommended for outside mounts only.

Width cannot be cut down after fabrication is completed.

STYLE OPTIONS

CLASSIC ROMAN

Classic Roman style shades incorporate the sculptural qualities of a traditional Roman shade to add dimension and interest to your windows. The Classic Roman style shade, when raised, finishes into a matching 3" valance.

FLAT ROMAN

Flat Roman style shades offer a subtle approach to the classic. In the lowered position the fabric is the main focus. When raised, the shade folds up like the Classic Roman style shade, finishing into a matching 3" valance.

SURCHARGE OPTIONS

TOP DOWN/BOTTOM UP

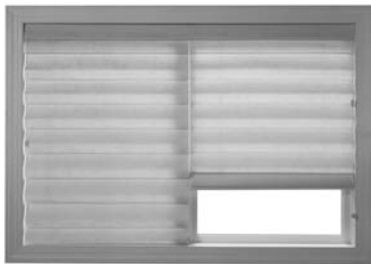

Features:

- Designed to maintain privacy while still allowing viewing and natural light to be available.
- Ideal for air circulation on double-hung windows.
- Available with standard cord lock only.
- Measure the same as a standard shade.
- Available in both Classic Roman and Flat Roman.
- Price as standard shade and add 25%.

TWO-ON-ONE HEADRAIL

- Two shades have a single headrail and operate independently.
- Some shade specifications require two shades on one headrail. The single panel width for a shade varies per fabric and is listed in parenthesis next to the fabric name on each grid.
- Available in Classic Roman style only.
- Price as single shade and add \$52.

CONTINUOUS CORD SYSTEM

- The Continuous Cord System is an integrated clutch locking system which utilizes a continuous loop pull cord. The shade will automatically stop and lock in position when the cord is released.
- Cord lengths on Continuous Cord Shades are available in heights from 2-feet to 15-feet at 1-foot intervals. Please specify when ordering.
- Avalon, Briarwood and Brushed Suede Room Darkening fabrics are only available for use with the Continuous Cord Loop System.
- Due to weight requirements, certain shade sizes require the continuous cord system in order to function properly. When continuous cord is required, no surcharge will be applied to the price of the shade. Weight requirements vary per fabric and are outlined on each price grid under the heavy rule.
- Measuring note (outside mount only): The Continuous Cord headrail will always be approximately $\frac{3}{8}$ " wider than the fabric. If you desire the fabric to cover a specified area on an outside mount, add $\frac{3}{8}$ " to the width when the space allows. (Never follow this rule on an *inside* mount.)
- Available in both the Classic Roman & Flat Roman styles.
- To determine pricing, please refer to the bottom of each price chart.

CORDLESS

- Available in Classic and Flat Roman styles with no dangling cords. Simply raise and lower the shade from the bottomrail.
- Select Standard Headrail with fabric insert or fabric valance.

TOP-DOWN/BOTTOM-UP

CORDLESS

- Operates with no dangling cords like a standard cordless but will stack at top or bottom of window.
- Comes with coordinating fabric valance. (Fabric insert not available.)
- Available in both Classic and Flat style Roman shades.

ROMAN SHADE MOTORIZATION

Kensington Roman Shades with RTS Motorized System

Kensington Roman Shades utilize the continuous cord hardware system and a battery operated motor with radio frequency controls.

Width and Height Dimensions

Minimum Width:	30"	Maximum Width:	96"
Minimum Height:	8"	Maximum Height:	120"

*Height measurements may vary +/- 1/8"

Surcharges

The Roman Shade Motorized Lift System includes a standard 12 Volt battery wand with eight AA lithium batteries. The remotes, wall switches and timers are sold separately and can be used in conjunction with one another.

Prices are as follows:

RTS Motor Surcharge: \$371 + continuous cord surcharge

Battery Wand Upgrades

48" Extension Wire:	\$16
96" Extension Wire:	\$22

Remote

RTS 5 Channel Remote: \$133

5 Channel RTS Remote

The 5 Channel Remote can operate up to five shades or groups of shades individually. The remote utilizes one 3V lithium battery and is included with your order.

Wireless Wall Switches

RTS 5 Channel Wall Switch, White:	\$261
RTS 5 Channel Wall Switch, Ivory:	\$261

Please note: All standard Roman discounts apply to the motorized lift system pricing.

5 Channel Wall Switch Option

The RTS System has a wall switch option to operate the shades. The 5 Channel Switch can operate up to five shades or groups of shades individually. The switch is easy to install with a standard single gang electrical box and does not require any wiring.

Overall dimensions: Height 4 1/2" Width 2 3/4" Depth 1 1/4". One 3V Lithium Battery is included in your order.

**Please specify white or ivory when ordering.*

How to Price a Roman Shade with Lift Motor

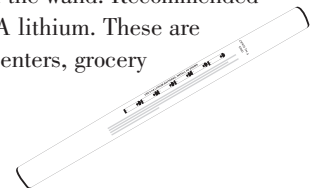

Tudor Classic Style Shade 48" x 60":	\$379
Continuous Cord Surcharge:	\$50
RTS Lift System Charge:	\$371
RTS 5 Channel Remote:	\$133
Total:	\$933

Battery Life

Battery life will vary based on the type of covering, the size and weight of the window covering and the number of times you operate the shade daily.

Battery Replacement

Eight lithium batteries are included with the wand. Recommended replacement batteries are Energizer® AA lithium. These are commonly found in home improvement centers, grocery stores and hardware stores.

RTS System Wireless Timer \$268

The RTS System Wireless Timer allows you to set specific times for your shades to be raised and lowered. The Timer can be programmed to operate at the same time or different times each day. The Wireless Timer also features a security function that will raise and lower shades randomly to give the impression of an occupied home. Commands are transmitted via radio frequency so external wiring is not necessary. Overall dimensions: Height and Width 3 1/8" Depth 1". Two 1.5V DC (AAA) batteries are included in your order.

RTS System Wireless Timer with Sun Sensor \$404

The RTS System Wireless Timer with Sun Sensor has identical features to the timer above, but can also be programmed to raise and lower your shades according to the intensity of incoming sunlight.

DC Power Supply \$114

12 Volt DC Power Supply is available and requires a standard power outlet to run the shade's motor. The power supply plugs into the motor.

Battery Operated Motorized Shade Warranty

The fabricator warrants its motors to be free from defects in material and workmanship under normal and proper use for a period of 5 years starting from the date stamped on the motor. Mechanical, electrical and electronic accessories are warranted for one year from the invoice date.
